7. Cleaning/Damage/Security Deposit Agreement

7.1 CLEANING/DAMAGE/SECURITY DEPOSIT AGREEMENT

Property Address: <<Unit Address>>

Amount of <<Security Deposit Charges>> is hereby acknowledged as a cleaning, damage and security deposit which is subject to the following terms and conditions:

7.2 CLEANING

Any cleaning that is required after the unit is vacated will be performed by professional cleaners and billed at the rate of \$55.00 per hour or market rate, whichever is greater. This rate will be honored through the initial term of the lease; if lease renewals are approved, this rate may change. Check with the office for current rate.

7.3 DAMAGE

Charges will be assessed for the cost of restoring the unit to its condition upon move in; wear resulting from ordinary use excepted. These charges will include, but not limited to labor and material costs for repairs, replacements, storage fees, dump fees, photos and administrative charges.

7.4 SECURITY

Failure to give proper written notice of intent to vacate 20 days prior to end of rental period can result in rent charges being assessed for the following rental period, less any rent amounts received as a result of the unit being re-rented. These charges will be deducted from the security deposit. Any charges owed by the tenant for unpaid rent, late charges, processing fees, service fees and administration charges can be charged against the security deposit. In the event that the current owner of your unit sells the property, your security deposit will be transferred to the new owner minus any outstanding charges to the account.

7.5 PENALTY PROVISION

Tenants who vacate their unit prior to the end of the lease term remain responsible for all duties and conditions of the lease until the unit is re-rented or the lease term expires. **When a lease is broken, tenant(s) may forfeit all security deposit monies.** The deposit is subject, but not limited, to the following costs: rent, advertising costs, administrative costs, all tenant maintenance and labor costs, lawn care, utilities. If the unit is not re-rented by the time deposit statements are issued, rent through the end of the lease term will be stated as due and payable. Upon re-renting the unit, Windermere Management by Ebright Wight, LLC will issue a revised statement. If a lease assignment is granted, the security deposit remains with the property.

7.6 REFUND

The owner or agent agrees to refund any monies due the tenant, subject to the conditions listed herein, to his/her last known address 30 days after termination, with a statement for any funds withheld, along with copies of estimates received or invoices paid that reasonably substantiate the damage charges. Legal remedies, if necessary, will pursue monies due beyond deposit. If refund is not possible within 30 days after termination, a Letter Holding estimating costs will be sent within 30 days. Refunds from the security deposit will be divided equally among roommates, unless Windermere Management has written authorization to do otherwise.

7.7 RENT

Rent will be charged through midnight of the day that keys are returned to the business office. Keys received through a night drop will be receipted the next morning and credited to the evening of the previous day.

7.8 KEYS AND LOCKS

The resident will be charged the cost of re-keying the lock(s) and making new keys if **all** keys are not returned by midnight of the last day of the rental period. **All keys** should be turned in at the same time. We are not responsible for charges (hauling, cleaning, inventory and storage of possessions, etc.) resulting from uncoordinated returning of keys. The return of the keys by tenant(s) to the landlord determines the release of possession and the end of tenancy. Until the keys are physically delivered to the Windermere Management office, tenants are obligated to pay rent for possession of the unit. When keys are returned, the tenants are effectively saying that they have finished cleaning and moved out. Once keys are returned, tenants may not enter their **former** rental property for any reason without the consent of Windermere Management, even if remaining rental days are deemed to be the responsibility of the tenant per Washington State Tenant Landlord Law. Personal property found on the premises after keys are returned will be dealt with as per State law, and appropriate charges will be withheld from the security deposit. We consider early move out and key return as the tenants' choice and convenience. Once keys are returned, paid rent balances are forfeited unless a new tenant also pays rent for the same time period. In that case, appropriate refunds will be issued.

7.9 MAINTENANCE

1. Residents will be charged the cost of a maintenance person's service call (minimum one hour), plus materials for any of the following (but not limited to) items that need servicing after the unit is vacant:

3. \$100.00 plus dump fees.

5. Rates quoted herein are based on service costs at the time the Lease/Rental Agreement is executed and honored. Thereafter, rates may be adjusted as dictated by the market. Contact the office for current rates during the original lease term.

7.10 DEPOSITS

The funds paid as a deposit may not be used by the tenant as a credit toward rent. The funds are paid to the agent for the purposes herein contained and for no other purposes. They are deposited at Banner Bank, located at 1600 Cornwall Ave., Bellingham, WA 98225.

7.11 ANIMALS

Animals are only permitted with written authorization by the owner/agent and with payment of any applicable fees or charges. Your Security Deposit may be charged for flea extermination and be subject to additional charges as per items 1.3 and 1.4 above. Said fees/charges are not considered part of your Cleaning/Damage Security Deposit.

7.12 INSPECTION/ACKNOWLEDGEMENT

A \$25 fee may be imposed for missed inspection appointments or re-inspection. All inspections, re-inspections and supervision of cleaning and repairs will be charged.

The undersigned acknowledges that she/he has read and received a copy of this agreement and the Lease/Rental Agreement and agrees to the terms thereof.

7.13 ADDITIONAL INFORMATION

Additional information regarding the Security Deposit that may affect your refund:

Cleaning: We provide, with very few exceptions, a deep-cleaned unit to incoming tenants. Exceptions are negotiated and documented at the beginning of the lease. We inspect a unit for damages and cleaning only after the keys have been returned. Return of keys tells us that the unit has been vacated and cleaned.

Garbage: Garbage service is limited to what is stated on the lease/rental agreement. Charges caused by non-compliance with this rule, including billing and administrative fees, may be held against the security deposit.

Lockouts: If a tenant is locked out of a unit during business hours, a key can be checked out at the Windermere Management office. (positive identification will be required.) After hours, tenants will be charged a service call for unlocking a unit (service call charge will be added to tenant ledger and positive identification are required). Once the key bearer is dispatched, the charge is in effect – even if a

roommate shows up and admits a locked-out tenant. This charge, if unpaid, will be applied against the security deposit.

Maintenance: Tenants must attempt to minimize maintenance issues with proper respect and operation of all systems. The landlord may authorize repair of normal wear-and-tear items. Tenants may request authorization to perform repairs themselves or request to have a Windermere technician do so at their expense. Windermere Management will bill tenants for damage or repair calls and/or unnecessary service calls.

For example:

1. Repair request – bathroom electric outlet doesn't work
Repair person checks outlet, resets breaker and restores power, tests for defects, finds none and leaves.
2. Repair request – freezer door broke and fell off
Repair person discovers thick ice from non – defrosted freezer caused damage to door

Further examples of tenant maintenance responsibilities are listed below. Unpaid charges of this type may be held against the security deposit upon move-out.

- Burned out or broken light bulbs
- Over-sudsing washer or dishwasher
- Oven switches improperly set
- Jammed garbage disposal
- Fire/flood/storm damage due to tenant abuse or neglect
- Blown fuses
- Clothing in pumps
- Dirty lint screens
- Broken windows and screens
- Clogs to sewer pipes

Windermere Management by Ebright Wight, LLC uses the State law as a guideline for prioritizing repairs, and both Windermere Management and State law recognize that seasonal conditions or heavy work schedules may, at times, delay response time. Other delays may be maintenance items requiring communication with the landlord who makes the final decision regarding routine maintenance, long- term maintenance and the general condition of the rental unit. Tenant requests for extra maintenance or improvements are to be submitted in writing, detailing the requested work and any volunteer labor or capital the tenant is willing to provide.

Renter's Insurance: We require renter's insurance for tenants. Most policies cover break-ins and theft, but more important, they insure property against fire, floods, storm damage, etc., and will pay for housing if a tenant is displaced. The landlord is not responsible for such losses. Please reference section 3.2 for more information.

Roommate Partnerships: When entering into a roommate tenancy, each roommate is equally responsible for his/her own actions, as well as the actions of the other roommates, visitors and guests. Windermere Management does not mediate disputes between roommates. Charges and refunds from the security deposit will be disbursed equally amongst tenants, unless specified in writing. 10. Space Heater Fire Hazard

10.1 ELECTRIC SPACE HEATERS DO CAUSE FIRE HAZARDS FREQUENTLY

Please review the following information regarding the facts and dangers of portable electric space heaters.

- Most portable electric space heaters consume up to 1500 watts of electricity.
- All general purpose circuits (supplying power to lights and outlets in bedrooms, bathrooms, living rooms, and hallways) are capable of supplying 1800 watts of power.
 - all devices (items plugged in to outlets or light switches) in a given circuit are wired in a series. That is, wires carrying power begin at the source (electric breaker panel or fuse box) and run from one device to the next until the circuit ends at a point where the 1800 watts is used up. Then another circuit will begin.
 - There are several circuits in new homes, fewer in older homes.
- If a space heater is in use, there are only 300 watts left to power all other lights and devices in the breaker panel or fuse box.
- If a circuit is utilized at or near maximum capacity for extended periods, the circuit will fail at the breaker panel or fuse box.
 - Circuit failures come in many forms, but all failures involve excessive heat in cords, wires within the walls, and outlet connections.
 - The most common failure is found on wire connections located on the back of the device.
 - Outlet receptacles are inexpensive to purchase. However, problems are expensive to locate because all devices are in a series. All outlets and switches must be removed until the problem is found.
 - Where there is excessive heat, there is the possibility and increased likelihood of fire.

The safest, most effective, and energy efficient way to heat your home is by utilizing the heating system designed for and installed in the home

If your heating system has malfunctioned, a heating company or an Ebright Wight Maintenance technician may set up space heaters in your home as a temporary solution until repairs can be made. In the event that this occurs the safest way to use portable space heaters is to run them on "low or medium" power for extended periods. Running them on high will likely cause the aforementioned problems to occur.

Thank you for your attention to this matter. We hope you have a safe and comfortable winter.

11. Mold Information/Prevention

11.1 MOLD INFORMATION/PREVENTION

Property Address: <<Unit Address>> Mold Information / Prevention

Tenants and landlords are responsible to ensure your home is a healthy environment. Mold has the potential to cause health problems. Inhaling or touching mold or mold spores may cause allergic reactions in sensitive individuals. Allergic responses include hay fever-type symptoms, such as sneezing, runny nose, red eyes, skin rash and asthma-like symptoms.

The best preventative of mold is to eliminate moisture and produce good air ventilation. If you find leaks from pipes, roofs, or windows, please report immediately to this office. If wet or damp materials or areas are dried 24-48 hours after a leak or spill, in most cases mold will not grow.

As a tenant, you can take steps to prevent mold. If you see dark specks or patches on your walls or floors, or if you begin to notice a musty smell, please call our office immediately. *We encourage you to call our office if you have any questions.*

Knowing the following tips will help you keep mold from becoming a problem.

If I find mold, how do I get rid of it? It is impossible to get rid of all mold and mold spores indoors; some mold spores will be found floating through the air and in house dust. The mold spores will not grow if moisture is not present. Indoor mold growth can and should be prevented or controlled by controlling moisture indoors. If there is mold growth in your home, you can clean up the mold, but if the water problem is not fixed, then the mold problem will most likely come back.

To clean mold from small areas, use gloves, scrub with detergent and water and dry completely. A 50% bleach solution can be added, but please use caution. For large areas, contact our office.

Bathrooms: Places that are often or always damp can be hard to maintain completely free of mold. Increase ventilation by running a fan or opening a window, and cleaning more frequently will usually prevent mold from recurring, or at least keep the mold to a minimum. When not in use, keep the bathroom door open. Small stationary fans can also help.

Kitchen: Steam and water spills in the kitchen are contributors to mold spores. Use the stove fan and/or crack a window when cooking or using the dishwasher or doing dishes by hand. Long-time slow cooking on the stovetop is a major contributor to mold problems. Leave the window open and/or the fan on when using this cooking method. Small stationary fans are inexpensive and a good ventilation tool.

Ventilation: It is recommended to get into a routine of opening windows and/or doors twice daily for 5 minutes (in winter too) to create cross ventilation. This practice will greatly increase your efforts in mold prevention, and...it's good for you.

Heat: For homes with electric baseboard heat systems, it is necessary to have a 2" gap between the heaters and furniture. Closet doors should be left open often to allow heat to enter, and articles stored in the closet should not be up against a wall.

Leaks: Report all leaks to this office immediately.

14. Winterization Addendum

14.1 WINTERIZATION ADDENDUM

Property Address: <<Unit Address>>

Each winter, Whatcom County experiences one of its famous “Northeastern” wind storms. Some renters have experienced frozen pipes and damages caused by the pipes thawing. In most cases, these problems **could have been avoided** by the tenant taking some simple precautions.

1. Leave your heat on a low setting – not lower than 60 degrees. If you are leaving for a period of time, have someone check in periodically to run some water out of all the pipes. During a serious cold spell, please **leave water dripping** from all faucets to ensure they do not freeze. Also, keep the cupboard doors open under your sinks to keep warm airflow to that area.
2. All doors to adjoining rooms should be left open. If there is an extreme cold spell, **keep heat on during the day** while you are at work or away from your home.
3. Make sure that the **crawl space vents** on the outside of your dwelling are covered. This helps keep the cold air from getting to the pipes and keeps your floors warmer. If you live in a large apartment complex, your resident manager/property manager will take care of the vent covers. If you live in a very small complex, or a house, the whole responsibility of vent covers will be yours. It is your responsibility to keep heat on in your unit during the cold spells. Our Rental Agreement states that the tenant is expected to take care of the dwelling as if it were his/her own, and tenant is responsible for damages caused by negligence. Turning the heat completely off during a freezing spell is considered negligent.
4. Pipes in most dwellings run through walls and ceilings. If they freeze and break, damage to your personal belongings is not covered by the owner’s insurance. The Owner/Agent shall not be liable for damages to either. Please contact your renter’s insurance in case of damage occurring.
5. Hoses in most dwellings must be disconnected and drained. Outside faucets must be protected and drained so they will not freeze.
6. Furnace filters must be replaced, if not cleaned on a regular basis. The furnace will run with greater efficiency when it is properly maintained.

If preventative steps are taken to avoid these problems during cold weather, they will provide a smooth winter and avert future repair and possible charges.
